PROFESSIONAL EXPERIENCE

Web Application Developer

Aug 2022 – Present

iPacket, Parkersburg, WV

- ◆ Led multiple concurrent technical programs, ensuring scope, objectives, and deliverables were met in alignment with strategic goals.
- ◆ Collaborated with engineering, product management, and cross-functional teams to design and execute high-impact SaaS and integration solutions.
- ◆ Created and maintained detailed project plans, including milestones, dependencies, and resource allocations.
- ◆ Monitored program progress, proactively identifying risks and developing mitigation strategies to avoid delays.
- ◆ Facilitated transparent communication across teams and stakeholders, providing regular updates to leadership.
- ◆ Optimized Jira workflows and Atlassian tool configurations to improve visibility, reporting, and team efficiency.
- ◆ Applied Agile/Scrum practices including sprint planning, backlog grooming, and retrospectives to drive on-time delivery.

Web Developer/ Product Data Coordinator

May 2017 – May 2019

BHMedWear, Brooklyn, NY

- ◆ Developed and maintained SQL-based tracking systems to ensure data accuracy and compliance.
- ◆ Worked with leadership to launch a Shopify-based internal platform, improving operational workflows.
- ◆ Used Google Analytics to assess site performance, support decision-making, and improve conversion rates.
- ◆ Produced regular operational and compliance reports to aid strategic planning.
